LIMITED LIFETIME WARRANTY

Brockwell Incorporated, warrants¹ that its Architectural Shutter Collection product line (the “Warranted Products”) are free from manufacturing defects which result in cracking, splitting, and rotting under normal weather conditions for the life of the product. Brockwell Incorporated also warrants that its factory paint finishes on the Warranted Products will not peel or flake for the life of the product. Brockwell Incorporated warrants that the available storm-rated versions of the Architectural Collection shutters will perform as specified in the descriptions of the storm-rated shutters contained in the coverage table below for a period of three (3) years from the date of purchase. This warranty is subject to the following limitations:

- 1.** This warranty extends only to the original owner who shall be defined as the person or persons who owned the structure in question on the date of purchase of the Shutters in question.
- 2.** Brockwell Incorporated will not be held responsible for damages resulting from Acts of God, accidental or intentional acts, installation other than in accordance with the manufacturer’s express instructions (which shall be solely determined by Brockwell Incorporated), or from repairs or modifications by persons not authorized by Brockwell Incorporated or from the use of parts and accessories (i.e. hardware or mounting devices) not authorized by Brockwell Incorporated. In addition, where storm-rated versions are employed, this warranty will be void if the shutters are not installed with all approved hardware in appropriate quantities in accordance with manufacturer’s instructions prior to the storm causing the damage. To qualify for the additional warranty coverage provided for these storm-rated shutters, storm-rated shutters must be ordered as such from Brockwell Incorporated. That is, storm-rated warranty coverage will not be extended by Brockwell Incorporated in instances where polycarbonate sheeting and/or storm bars have been ordered as accessories and added to non-storm-rated versions of these shutters.
- 3.** Brockwell Incorporated warrants its stainless steel hardware against manufacturing defects for the life of the product and its aluminum hardware for a period of ten (10) years. The finish on all Brockwell Incorporated hardware is not warranted against deterioration, including but not limited to, scratches, fading, and corrosion, particularly resulting from airborne sea salt in coastal environs.
- 4.** Brockwell Incorporated will not be held responsible for damages resulting from water seepage through closed shutter systems including, but not limited to, storm seepage.

¹ This warranty is effective January 20, 2011 and supersedes all previously published versions of this warranty. It shall remain effective until such time as TTG publishes a subsequent superseding version at which time this version shall have no further effect.
